

P2-WS104-0868

Wireless Signal Repeater

For use with the D3 family of wireless base stations
Compatible with a range of P2-WS Transmitters (supplied separately)

Product Drawing:

Designed to work with tek troniks D3 wireless base stations and is compatible with a full range of tek troniks wireless transmitters.

Long range secure communication protocols using licence free 868 Mhz radio frequency.

Bi directional wireless communications with the base station allows for communication status reporting.

When covering large distances or where obstacles block the signal of wireless transmitters, repeaters can be used to create interconnecting mesh network to aid communications.

Technical Specifications:

RF Frequency: _____ 868 Mhz 14dbm - UK & Europe	Power: _____ 5V external power supply (provided)
RF Range: _____ 1 kilometre (line of sight, open field) 200m typical in buildings	Weight: _____ 73g
	IP Rating: _____ IP45
	Power Connector: _____ Push fit twist lock
	Operating Temperature: _____ -20°C to 55°C
	Mounting: _____ Integral magnetic strip or optional mounting bracket

Doc: 106-10071-01 (Datasheet - P2-WS102-0868)
